Intek AR-109 is an airband, broadcast, marine and VHF receiver

Model : AR-109

Manufacturer : Thunderpole

The Intek AR-109 is an airband, broadcast, marine and VHF receiver that is small enough to fit in your pocket but packed with features.

It has 99 memory channels and contains the 8.33kHz airband frequency step. It covers the Airband (118-137MHz), Broadcast band (88-108MHz) and VHF band (137-175MHz) so can be used to receive the 144MHz amateur band, emergency services, commercial VHF radios, VHF marine band as well as the full Airband.

It also comes with a high capacity 1200mAh battery and mains charger.

Price : £88.08 inc VAT (£76.59 ex VAT)
